### THE DAY WITH THE CABINET.

late Secretary of War, called upon his successor this morning, presumably to supply him with information respecting current business.

Senators Padlock and Hawley, and Representative Dorsey, of Nebraska, were among Secretary Proctor's callers, and they subsequently called upon Secretaries Blaine and Tracy. No appointment has yet been made to fill the private secretaryship in the Navy Department, vacated by Mr. Fletcher, and the assistant is discharging the routine duties of the office. Ex-Senator Chandler called about midday upon Secretary Tracy and had quite a long chat with him. In all of the executive departments located in the State, War and Navy building, the changes likely to result from the change in politics of the Administration are few in number, because a long line of precedents favor a continuation of the bureau chiefs in the State Department, while in the others the superior posts are mostly filled by detailed Army or Navy officers.

Assistant Secretary Thompson was acting Secretary of the Treasury to-day at the request of Secretary Windom, who announced his intention of devoting the day to the reception of visitors. A large number of Senators and ex-members of Congress availed themselves of the opportunity afforded and called to pay their respects, and throughout the day the room of the Secretary was filled with visitors. No distinction was made in favor of the politicians and the general public was largely represented.

Secretary Noble arrived at the Interior Department a little after 9 o'clock this morning and from that hour until iate this afternoon has been kept busy receiving visitors. A large number of Senators and Representatives called and paid their respects.

Postmaster General Wanamaker also reached his department ently, accom-

receiving visitors. A large number of Senators and Representatives called and paid their respects.

Postmaster General Wanamaker also reached his department early, accompanied by First Assistant Postmaster General Stevenson and Chief Clerk Roy. He visited the offices of the bureau chiefs—and other officials and acquainted himself with the general location and arrangement of the offices of the several divisions of the department. All of the higher officials have tendered their resignations, and without accepting any, Mr. Wanamaker has requested them to continue in their respective offices for the present at least. A large number of Senators, Representatives and others called during the day. Col. John M. Wilson, of the engineer corps, has been placed in charge of the work on the Washington Aguadut extension, relieving Major G. J. Lydecker, who will be tried by court-martial on the 25th instant, for neglect of duty in connection with this Improvement. This assignment of Col. Thereupon Mr. Sherman offer-ed a resolution that during the absence of the Vice-President Mr. lugalis should of the Vice-President Mr. Ingalls should be President of the Senate pro-tempore. An amendment for that resolution was offered by Mr. Harris, substituting the name of Mr. Voorhees for that of Mr. Ingalls. The amendment was rejected; yeas, 27; nays. 29, and the resolution was agreed to.

Mr. Ingalls thereupon entered upon the duties of Presiding Officer pro-tem, the oath of office having first been administered to him by Mr. Sherman, and it was ordered that the President of the United States be notified of Mr. Ingalls' election.

At no time within the memory of the oldest Senator have there been so few changes to make in the composition of committees at the beginning of a Congress as at present, or when changes were likely to be attended by so little friction. Throngs of anxious boomers who have been waiting at Furcell for weeks can scarcely be held back and altogether the indications are that there will be fully two thousand men here inside of a week unless the military moves from Fort Reno at once. Preparations for a raid have been going on at the Fort for some time, and it is expected they will move to-morrow or next day.
